MANIKUMAR KUNDENA

Bachelor of Engineering ï¿½ Computer Science & Engineering

Siddaganga Institute of Technology | CGPA: 9.58 / 10 (2024ï¿½2028)

Location: Bengaluru, Karnataka | Email: manikumarkundena@gmail.com | GitHub: github.com/manikumarkundena | LinkedIn: linkedin.com/in/manik

SUMMARY

Computer Science undergraduate at Siddaganga Institute of Technology who genuinely enjoys building practical software. Learns by building, enjoys solving real-world problems, and focuses on creating useful software rather than flashy projects.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++

Android Development: Kotlin, Jetpack Compose, Android Studio

Web Development: HTML, CSS, JavaScript, Tailwind CSS

Backend & Services: Firebase, Supabase, REST APIs

Artificial Intelligence: Generative AI, Prompt Engineering, NLP Fundamentals, Google AI Studio

Tools & Platforms: Git, GitHub, VS Code, Figma, Canva, Vercel, Render

KEY PROJECTS

BoostMe ï¿½ Career preparation & skill self-assessment application

ï¿½ Constructed prompt engineering workflows for gap analysis and career feedback.

Tech: Generative AI, Prompt Engineering, Google AI Studio, JavaScript, Tailwind CSS, Vercel

Resume Relevance Checker ï¿½ Targeted resume & job description matching tool

ï¿½ Formulated textual parsing logic and prompt templates to measure keyword overlap and relevance.

Tech: Generative AI, Google AI Studio, JavaScript, Tailwind CSS, Render

Rakshini ï¿½ Women safety & emergency response Android application

ï¿½ Developed native Android emergency alert interface and location sharing triggers.

Tech: Kotlin, Jetpack Compose, Android Studio, Firebase, REST APIs

ScriptInk Registration Portals ï¿½ Web registration & management portals for student events

ï¿½ Built registration portals digitizing participant entries for WritoFest & RAGE.

Tech: HTML, CSS, JavaScript, Tailwind CSS, Firebase, Supabase, Vercel

FinVision ï¿½ Personal finance awareness & visual tracking tool

ï¿½ Engineered visual budget breakdown logic and expense tracking interface.

Tech: JavaScript, HTML, CSS, Tailwind CSS, Supabase, Vercel

EXPERIENCE & ROLES

UI/UX & Web Development Intern | Internship Studio — Internship

ï¿½ Designed user interfaces prioritizing usability and responsive layout; built clean web components in HTML, CSS, JS, and Tailwind.

Google Student Ambassador | Google Student Ambassador Program — 2024ï¿½Present

ï¿½ Represented Google developer initiatives and technology awareness on campus.

Technical Team Member | ScriptInk (Literary & Creative Student Club) — 2024ï¿½Present

ï¿½ Contributed to technical development of registration portals for WritoFest & RAGE flagship events.
